for a \$6,000 church building were made. On August 28, 1917, Calvary church was admitted a mein ber of Tate's Creek Association, while the Association was in session at the First Church of this city. During Rev. Petty's pastorate the foundation of the present building was laid and the walls of the basement were laid to the floor of the main auditorium. Unfortunately, for both church and pastor, trouble arose over misuse of the building funds an Rev. Petty was required to give up the work in December 1918. Confusion and consternation so shook the little church that again it seemed as if it would go defunct. But the number of steadfast, faithful ones was larger this time than before and they were more determined that they would

biseuris:

You remember the story of the Pitcher_

It made a good many trips to the well and it came back in good order.

"I can take care of myself," it said-"they don't need to talk about risks to me.'

But it went once too often.

After that it was only part of a pitcher, and they didn't need to talk to it about risks-it knew.

A lot of people won't believe coffee can harm them until it does harm them.

"Nonsense!" they say, "it never disturbs me."

When it does disturb them, then they know.

Often the disturbance which they then recognize is the result of irritations to nerves and digestion which have been going on for a long time.

If you have to lie awake at night and count the clock ticks, after an evening cup of coffee, then you know that it's better to be safe than sorry.

The risk of coffee's harm is gone when the mealtime drink is Postum.

Here's a delightful and satisfying table beverage, with charm for the taste and without harm for nerves or digestion. You know you're on the right road with Postum; there's never the possibility that you'll go once too often.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

"There's a Reason" for Postum

Made by Postum Cereal Company, Inc., Battle Creek, Mich.

GONIES S

Centers Around Opportunity Coupons

Ambition has raised men from lowest circumstances to the highest pinnacles of fame. This world would be a mighty poor place to live in, were it not for ambition.

the ambitious, the thrifty and for those who are willing to put their spare moments to profitable advantage.

For the past four days we have laid stress upon "The Opportunity Coupons." All interest in this campaign from now until November 1st, centers around these coupons. We realize that for one to take advantage of the five Opportunity Coupons, amounting to 50,000 extra votes—one must have ambiton, energy, perseverance, and stick-to-it-iveness. It is a known fact that ambitious people who strive to reach the top of the ladder, while they may not always succeed, do land somewhere along the middle. Those who lack the above mentioned quality never climb higher than the first few rounds.

At the present moment the top of the ladder is the obtaining of five. OPPORTUNITY COUPONS. If you try for five you will at least secure one or more of these valuable Coupons. If you try for one only you may not even secure that one.

The advantages of these coupons are numerous:

I—They positively possess the greatest vote value that will be given during the entire campaign.

2-They will positively be withdrawn November 1st.

3—Those obtaining one or more of these Coupons can rest assured they will have a comfortable lead over candidates who enter at a later period.

4—By informing your friends that you have succeeded in securing one or more Coupons, they will know you are out to win and will give you their support.

There are many persons who would like to enter this campaign, but who are a trifle timid or do not fully understand its details. Again we say, all you have to do to enter, is to fill out the Nomination Coupon, appearing on this page, and send the same to the Daily Register. Better still, bring it yourself and talk over the matter with the Campaign Manager, whom you will find ready to assist in any way possible.

Doubtless you have been keeping in touch with the campaign, reading all the publicity since the opening announcements. You should bear in mind that a campaign of this magnitude requires an abundant amount of detail work, hence our previous efforts have been devoted solely to preliminary preparations.

Now, "Candidates to be," remember there is yet plenty of time for ambition and energy to assert itself; therefore, take advantage of the Opportunity Offer and get an even start while "Opportunity Period" is on.

The campaign will be over in five short weeks, and 2 automobiles, 1 Edison and 1 Victrola, together with a liberal cash commission, will be awarded to those who have shown pluck and ambition and have helped Madison county's enterprising daily.

In conclusion, ask yourself the following questions:
Are the prizes worth making a determined effort to win?
Could you spend your spare moments to better advantage?

Is this not the most liberal offer ever made by a newspaper in this vicinity?

CANTRILL PLEADS TO

Washington, D. C., Oct. 28-Declaring it would be a public calamity if the burley tobacco growers of Kentucky fail to perfect their cooperative association, Congressman J. Campbell Cantill the campaign closes Novem- annually

"The growers have positive assurance from the Federal Government through the War Finance Corporation that they will be financed when 75 per cent of them have signed the contract." aid Mr. Cantrill before starting for Kentucky to continue his peaking campaign.

"During the last six weeks." ontinued Mr. Cantrill, "I have poken in twenty-five cities of he burley district appealing to the tobacco growers to sign the pooling contract. In each county visited I found great interest mong the farmers, and I am convinced that with a hard drive until November 15 that more than 75 per cent of the burley acreage can be signed. I find the armers very appreciative of the noble, effective and unselfish effort of Judge Bingham and his organization committee to secure

a living price for the burley crop. "For the first time the burley growers have the support of the banks, business men and the newspapers, and they are getting oyal and splendid support from these three sources. The growers, also, have positive assurance from the Federal Government. through the War Finance Corporaton, that they will be financed when 75 per cent of them have signed the contract.

"Hundreds of loval workers over the burley district are giving liberally of their time and means to assist Judge Bingham a perfecting the organization.

"Under all of these favorable conditions it would in my opinion be a great calamity if the burley tobacco growers failed to do their part by coming solidly to! the organization. In my judgment the prosperity of the burley grower depends entirely on this movement and we must not fail. Let every grower who has signed the contract get busy and keep busy until November 15 and then our success will be assured! and a new era of peace and happiness will come to the burley district."
